ABOUT US

>> THE COMPANY

- > **STAR SpA**, its origins dating back to the 1950s, joined the group in 1974 and took its current shape in the year 2000 with the contribution of the chemical and maritime logistics branches of the parent company, Marcevaggi, so as to create a specialised unit in the **liquid and dry bulk products transport** sector.
- > The markets in which it operates are essentially **Europe** and the **Mediterranean**.
- > The solid network of subsidiaries and agents allows it to operate promptly and professionally as it serves the primary **chemical industry**, offering **intermodal, maritime and road** transportation.
- > The company has invested in the ecological sector over the past 30 years, while executing the recovery and disposal of **special waste**.
- > STAR SpA boasts a fleet of over **1,000 units**. Today the company ranks among the Italian and European **market leaders** in the special transportation sector.

Our VISION

Shortening the distances
between people, places and goods.

Our MISSION

Doing difficult things
and making them easier.

TURNOVER

>> THE GROUP

> Marcevaggi was founded thanks to **Cavaliere del Lavoro Mario Remondini** who took over, in 1934, a small company in the port of Genoa, whose name was derived from the telegraph code of its founder, **Luigi Marcello Vaggi**.

1934

> His son, **Cavaliere del Lavoro Emanuele Remondini** who, together with his brothers, conducted the company towards a more international vision, acquired **STAR SpA** in the 1970s and founded **JV** together with the Levorato family, in the 2000s.

1970

> Since 2000, the **MARCEVAGGI Group** has consisted of two companies: **STAR SPA** (logistics of chemicals), and **LEVORATO MARCEVAGGI Srl** (gas transport and airport in-toplane services).

2000

> **Alberto Remondini** joined the company. The experience gained in the financial, logistics and maritime transport lead him, 8 years later, to become the **CEO of STAR SpA** and a **Member of the Board of Directors** of **Levorato Marcevaggi Srl**.

UNI EN ISO **14001:2015**

The company's social responsibility manifests through various local initiatives and environmental efforts, namely:

> Transfer of goods, from **road** to **intermodal** transportation

> Use of **low-emission diesel vehicles** or powered by LNG

> Use of **bio fuel**

> Our own production of **solar energy**

> Adoption of **energy-saving procedures**, such as the use of low-consumption lighting, timers, intelligent lighting, etc.

SERVICES

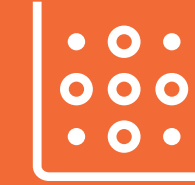

>> LIQUID BULK TRANSPORTATION

STAR SpA is engaged in the **transportation of liquid bulk, as chemicals, fats, oils and special waste** in Europe and in the Mediterranean, using a fleet suitable for the respective criticalities of the products handled. The company offers its services **by road** and **intermodal modes**, by rail and by sea.

TYPES OF
TRANSPORTATION

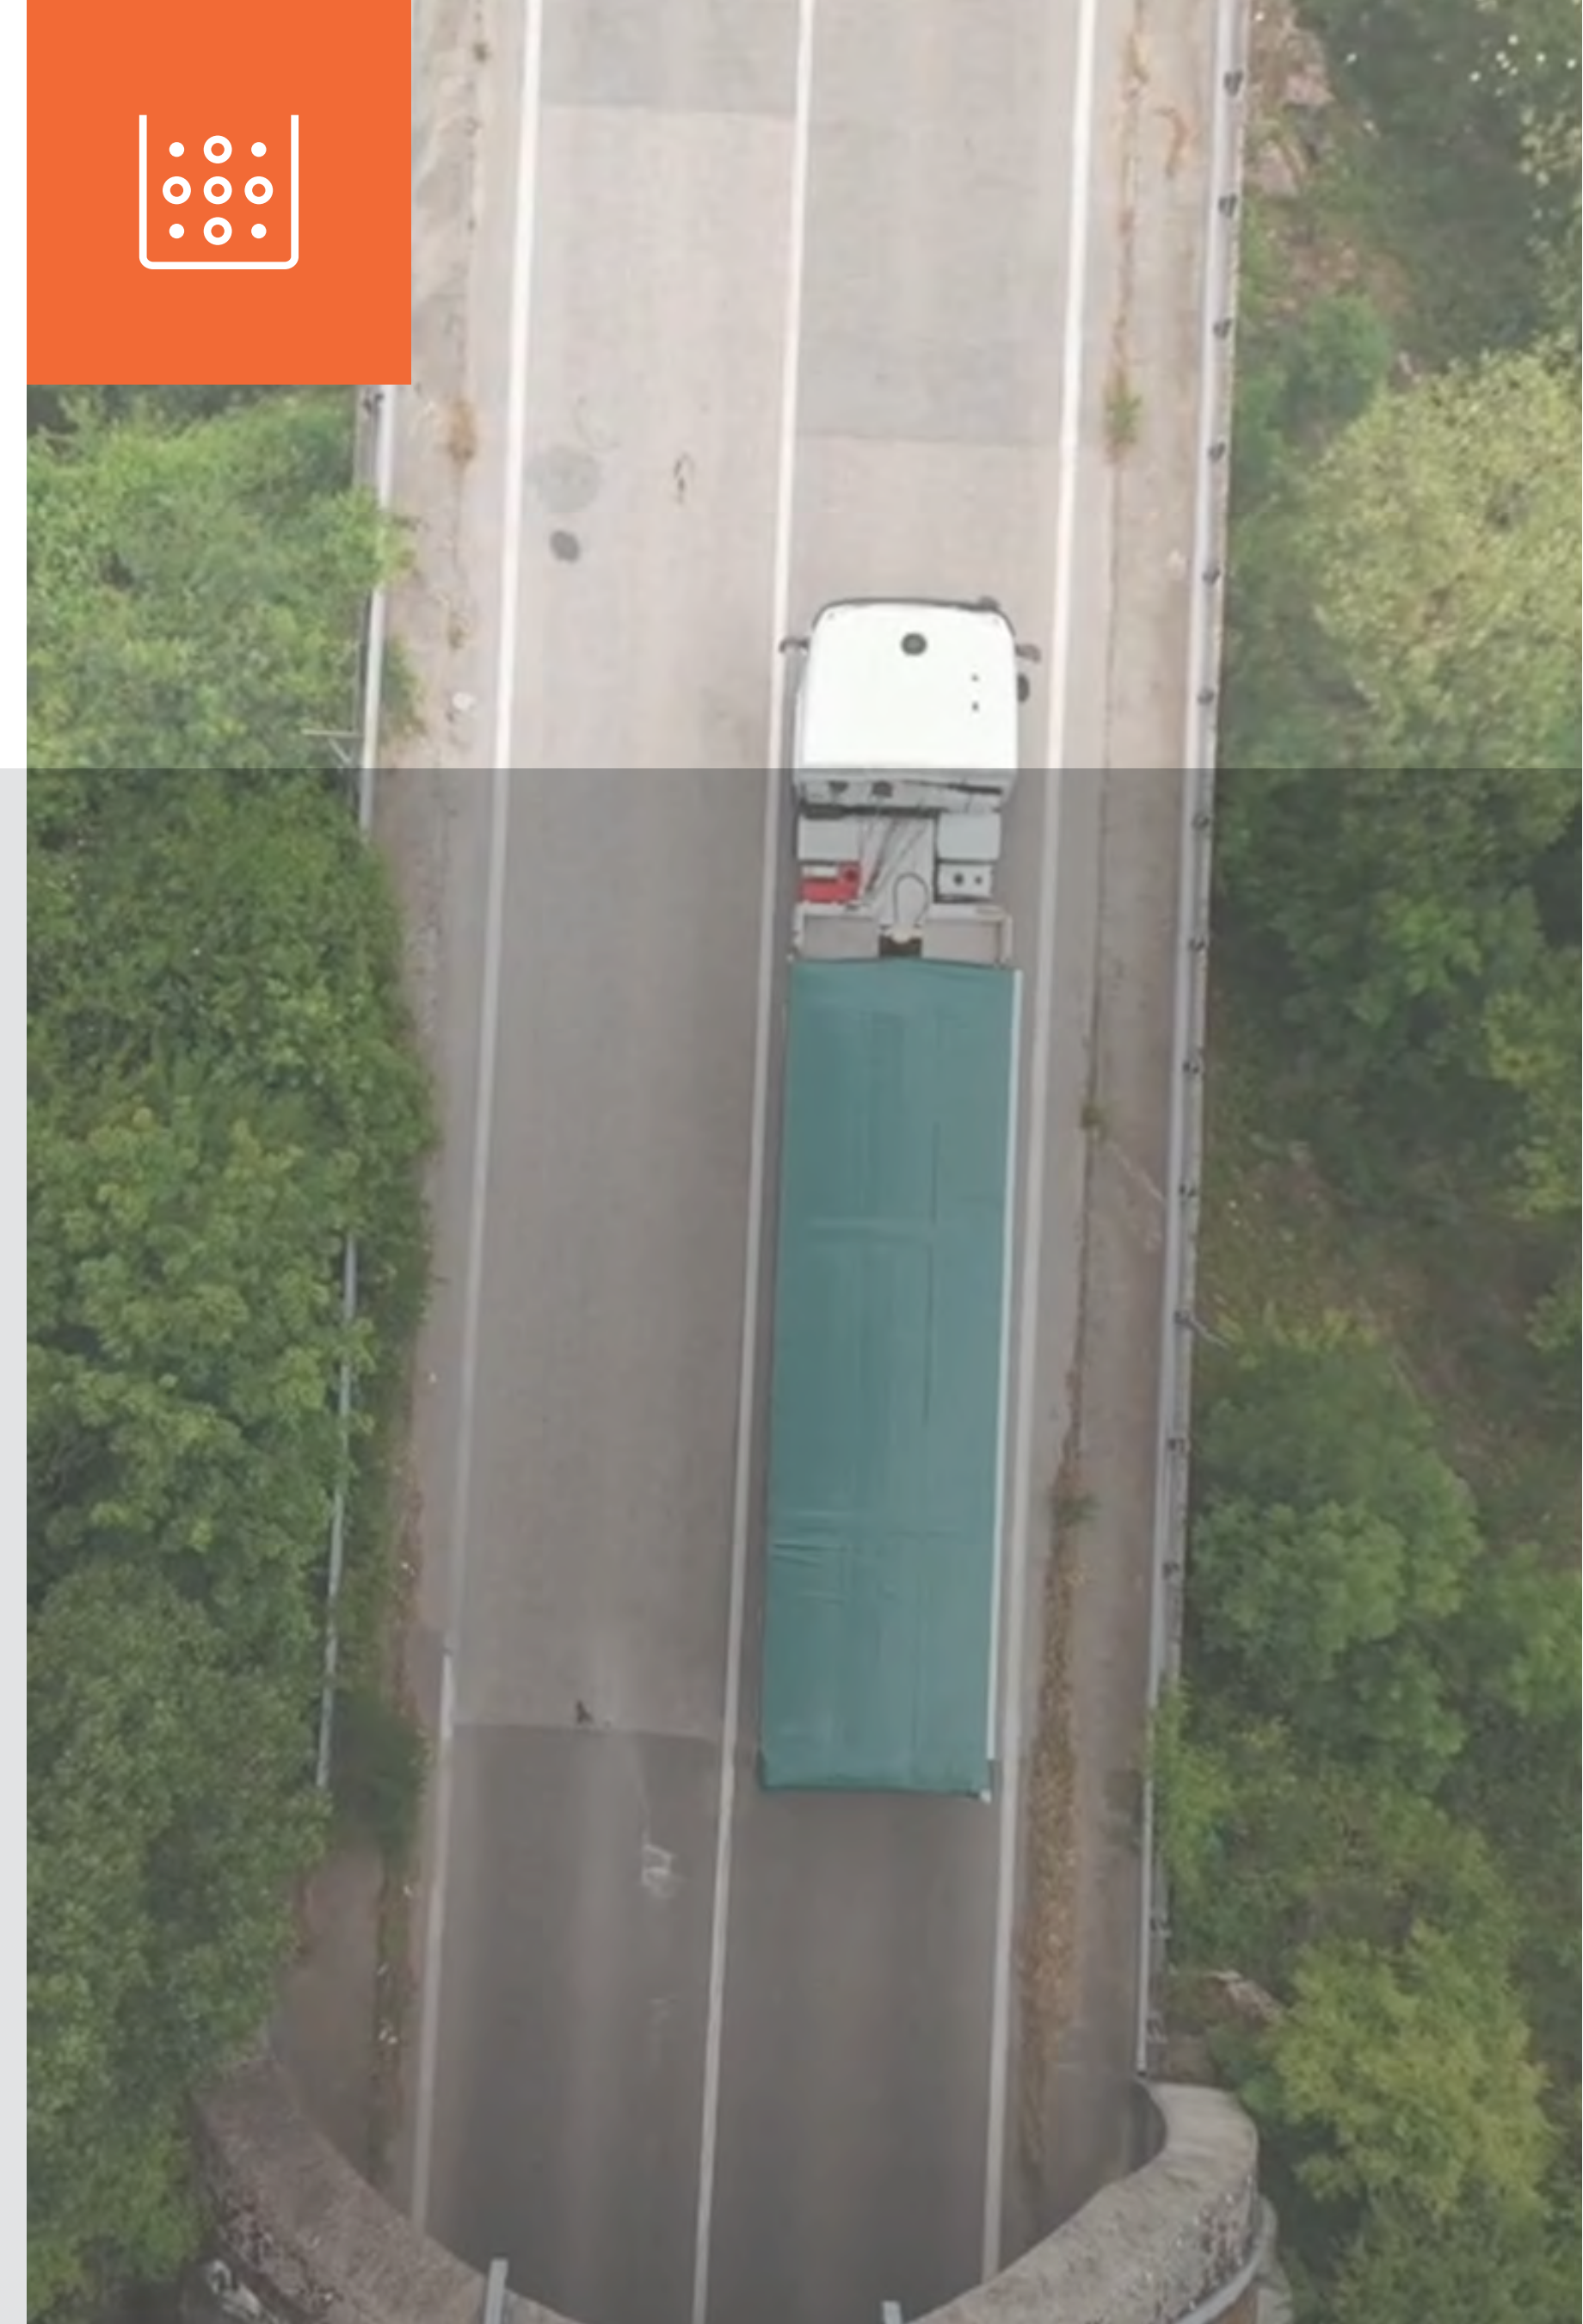

>> DRY BULK TRANSPORTATION

The company offers the **transportation of dry bulk products**, in particular **special waste** and **bulk goods of various types**. The fleet we use was studied by innovative manufacturers in order to maintain high **safety** standards and **water-tightness**, as well as to achieve maximum transport capacities.

TYPES OF
TRANSPORTATION

>> STORAGE AND WAREHOUSING

The company offers customers **storage and warehousing services**. More specifically, STAR SpA has a number of strategic areas authorised for the storage of **hazardous goods** in **TANK** and **BOX CONTAINERS**, thus optimising the supply network of Italian industrial plants.

STAR has its **own cleaning and washing facilities** for tanks, containers and other vehicles, which includes **two recently made facilities in Genoa and Milan**.

>> MARITIME SHIPPING

The division dealing with the maritime business consists of a team of **experts** dedicated to assisting STAR SpA customers in every aspect of maritime logistics.

More specifically, STAR SpA offers transport and shipping services, customs services, intermediate container storage, terminal and maritime services and assistance at destination for the **main Italian and European ports**.

STAR SpA offers maritime services in the Mediterranean with its **own equipment fleet**, as well as overseas with partners providing agency services and connections with the **global leaders in shipping container operations**.

PRODUCTS

>> CHEMICAL PRODUCTS

STAR SpA offers solutions for the **handling** – by road, rail and sea – of **chemical and petrochemical products**.

The company provides **specific vehicles** to meet the requirements of particular products and guarantees full compliance with strict procedures, which is essential **whenever chemical products** are handled in **tanks**.

The staff undergo **regular trainings** to operate safely and to ensure the quality of service. The company **emergency service** deals with critical cases and supports the entire transport chain.

>> SPECIAL WASTE

The management of special waste deriving from industrial production, destined either **for recovery** or **disposal**, is technically and administratively complex.

The **transport of special waste**, hazardous or non-hazardous, requires appropriate facilities, qualified staff, strict company procedures and task assignments. Our **distinctive management**, authorization, **control** and **training** systems, tried and tested for over **30 years in the industry**, are continually upgraded.

>> OTHER COMMODITIES

STAR SpA **transports bulk solids** and **liquids**, provided that the transported products are compatible.

More specifically, it caters for **the biofuel industry** – including raw materials and semi-finished or finished products – as well as for the **steel industry**. It also deals with **other commodities** (e.g. clays, sands, glass and others) and **by-products of animal origin**.

OUR FLEET

>> OUR **FLEET**

The company fleet consists of more than **1,000 units** of the latest generation, such as tractors, semi-trailers, tank containers, swap tanks and open tops. The vehicles are equipped with GPS tracking and control systems integrated with their own fully customised TMS. They are deployed and used in European countries and in the Mediterranean area.

OUR NETWORK

>> OUR **NETWORK**

SPREAD THROUGHOUT **EUROPE** AND THE **MEDITERRANEAN**

The company covers, with its own fleet, the **European, the Mediterranean and the overseas markets**, in collaboration with specific partnerships.

STAR SpA boasts a strong **intermodal vocation**, also confirmed by the shareholding participation of the main European rail carriers, and strengthened by the design of state-of-the-art equipment for the road and rail transportation of goods, in collaboration with the leading European manufacturers.
